

# Hey, young friends!

Welcome to STEMSiL, where we're making STEM (Science, Technology, Engineering, and Mathematics) super fun for Deaf kids in Europe!

## Our Mission

Imagine a place where you can bring your ideas to life! Imagine exploring science, creating cool tech, building amazing things, and solving math problems — all using sign language!

Our STEM co-creation labs are where the magic happens.

# What's Waiting for You

**Cool Adventures:**  
Get ready for exciting STEM adventures! We're creating fun ways for Deaf kids to dive into the world of science and tech.

**Magic Toolbox:**  
Imagine having your own STEM Toolkit! It's filled with tools to help you understand STEM easily. It's like having a magical box!

**Sign Language Fun:**  
Become a detective and discover how European Sign Languages connect with the STEM.

We're turning dreams into reality and showing everyone what inclusive STEM can do!

# Ready for a big adventure?

# Exciting stuff to do

**Bilingual Wizards:**  
Get ready for a handbook that's like your guide to a STEM wonderland. It's easy to understand and use in different languages.

**Digital Discovery:**  
Explore our Digital Toolkit with visuals in sign language — it's your ticket to making STEM even more awesome and accessible!

**Showtime:**  
Watch out for real-life STEM projects created by deaf kids, teachers, and interpreters.
